We are committed to protect environment by following local and International rules and regulations by utilizing material and resources to reduce emission.

We ensure to protect human health and safety for all work. We ensure employees are informed, well trained and educated with health related topics so as to promote healthy style

Activities

Our activities are as follows

We propose best, economical and long service life coating specifications for any type of intumescent, highly durable epoxy paint system and fantastic decorative architectural finish.

Our team carries out all type of coating applications for following Substrates

- ❖ Steel structures
- ❖ Piping
- ❖ Boats & Ships,
- ❖ Vessels,
- ❖ Tanks,
- ❖ Civil works
- ❖ Swimming pools
- ❖ Architectural Building

We can provide engineering solution for making paint booth for increased efficiency.

Type of Coatings

Epoxy Flooring

Specialized Swimming Pool Coatings

TSA Coating

Zinc, inorganic zinc, epoxy & polyuretha

internal Lining

Heat Resistant Coating

Non Skid

Gloss flake polyester coating

Architectural coatings

Projects

- ❖ Sand & Water Treatment plant blasting & coating application for Nash Engineering main client TOTAL
- ❖ Blasting and painting of Taweela Gas compression station piping for Al Jaber/Siemens/ADNOC
- ❖ Mid Field Terminal Architectural Engineering paint finish of Supporting ladders at Abu Dhabi Air Port for Jhango/TCA/JV
- ❖ Internal Lining of vessels for FERRO FAB/PEG at Jebel Ali Dubai
- ❖ Internal Lining of tanks for CLEIC /Itihad Paper Mill project at ICAD Abu Dhabi
- ❖ Masdar City Neighborhood project ,architectural Engineering
- ❖ Aluminum coating for all Façade at Masdar city Abu Dhabi
- ❖ Blasting and coating application of Steel structure and piping of Tabrid district water cooling plant at Abu Dhabi
- ❖ Blasting and coating of steel structure of Masdar Tunnel at Masdar city Abu Dhabi
- ❖ Aluminum coating of Façade work for China State at EXPO Dubai

Message of the Team Leader

A protective coatings project, managed well, provides owners with great outcomes, and I feel honor to initiate the mission of utilizing my 20 years' experience in the fields of protective coatings projects for our all respectable customers.

Being a protective coating specialist , working as technical manager from client and contractor side and being quality control expert ,understand to fulfill the current needs of successful projects (new and maintenance coatings) and intend to provide best fast ,technical ,quality and economical solution in terms of protective coating application.

Always enthusiastic, energetic and professional team ensures to provide the best blasting & coating services, so that the life of an asset is extended, making it more profitable; and the asset's maintenance time and costs are reduced, which enables its increased utilization.

A protective coating is not just paint. It is an engineered product that undergoes rigorous product development to provide specific properties that will protect a structure from its service environment and this is only possible by selecting the best team.
